DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 5 are allowed.

The following is an examiner's statement of reasons for allowance:

- The Examiner found the Applicant's arguments persuasive, and considers that the references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations describing the claimed subject matter of **claim 1**, in particular, at least one second sound emitting hole through which a rear space on a rear surface of the diaphragm in the casing communicates with the front outer space in front of the casing **through a space provided to a portion at which the lead terminal and the coil terminal are connected**; nor **(With respect to claim 4)** wherein the resonant frequency F_{v1} being set at a value near a frequency three times as high as the resonant frequency F_0 , and the resonant frequency F_{v2} is set at a value near a frequency twice as high as the resonant frequency F_0 .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
